OUR CAPABILITY

Fire Rescue Safety Australia is a Buznl organisation that runs parallel to those who strategically manage the emergency management process. We are professional equipment suppliers who provide expertise throughout the Asia Pacific region.

FRSA is a partner you can trust to provide the right advice and support throughout the entire emergency management cycle. Our team of professionals have strong backgrounds and expertise in varying disciplines of emergency response, providing exceptional levels of support around the clock when you need it most.

It is not by chance that FRSA has the best products in the world. We consistently seek new technology from leading manufacturers who develop innovative products that are often not yet seen in the Australian market. The chance to offer our customers advanced products that make a positive impact is a challenge we take very seriously. Here at FRSA, we know that any edge we can give our customers could ultimately save a life.

FRSA is a unique company with a holistic approach to our service. We offer unbiased advice, exceptional service, and back our products with a comprehensive maintenance program designed to ensure your investment is protected throughout its operational life.

Quality is the foundation of all products in the FRSA range. Our suite of products can assist emergency services in the following disciplines:

Vehicle Extrication.....	Page 2
Fire Fighting Equipment.....	Page 6
Fire Fighting PPE.....	Page 9
Breathing Apparatus.....	Page 12
Height Safety and Confined Space.....	Page 16
Search and Rescue.....	Page 19

OUR VEHICLE EXTRICATION CAPABILITY

When undertaking vehicle extrication scenarios, quality tools are vital to ensure efficiency and safety. At FRSA, we pride ourselves on our high quality products provided by our high quality suppliers. In the vehicle extrication scene, we have a long list of products that perform at the highest level and are compliant with all of the Australian and International Standards including AS/NZ, EN and NFPA.

Cutters, spreaders, rams, and stabilisation tools are just some of the range of products FRSA can provide in the vehicle extrication scene.

This catalogue provides insight into our range, however our capability extends well beyond this list. For more information on the products in this catalogue or any other products in this discipline, contact FRSA.
