About JT

In the dynamic realm of technology and innovation, the emergence of Jayani Technologies Limited has been nothing short of a saga marked by ingenuity, resilience, and a steadfast commitment to excellence. Originating as Jayani Technologies LLP in 2011 in the vibrant city of Mumbai, India, the company has evolved into a trailblazer in its domain. This narrative unfolds against the backdrop of the company's expansion into Hong Kong, a strategic move signaling its intent to conquer new horizons.

Established in 2011, Jayani Technologies (JTOPTICS[®]) was conceived as a response to the evolving technological landscape, recognizing the need for cutting-edge solutions that marry innovation with reliability. The Mumbai headquarters became the crucible for the company's early endeavor, a melting pot of talent and vision that propelled Jayani Technologies into the forefront of its industry and emerged as a leading manufacturer and supplier of cutting-edge solutions in the fields of optical Fiber, data center, networking, and electric vehicle components.

From its inception, the company distinguished itself by its unwavering commitment to client satisfaction, a commitment that became the cornerstone of its success. Jayani Technologies quickly became synonymous with technological prowess and an unwavering dedication to delivering solutions that transcended conventional boundaries.

JTOPTICS[®] has developed and produced many active and passive interconnection and connectivity products suitable for different networks, aiming to become a one-stop device integration solution provider in the open optical network field, products include MPO Cables, AOC cable, passive DAC cable, optical transceivers, optical modules & subsystems, active & passive optical components, and high-density cabling products.

Our passive products are distinguished by our large capacity and high-end products. In terms of production capacity, JTOPTICS has an absolute advantage over our competitors and a key player in the field of passive product manufacturing. Possessing the following strengths and characteristics, JT has achieved a dominant position in both domestic and international markets. We have a strong technical & QC team with over 10 years extensive experience and highly competent employee's base. We have over 10,000 square feet modern manufacturing plant, assured customer satisfaction, products quality and reliability through approvals from CE, FCC and ROHS, whilst maintaining competitive prices.

The development of JTOPTICS benefits from more than 50000 small and medium-sized customers widely distributed around the world. It is the needs of customers that foster the growth of the company and the progress of employees. JTOPTICS's unswerving goal is to create optical network middleware and subsystems with ultra-high compatibility and new technologies for open optical networks.

Welcome Message

Vijay Gupta
CEO

As the CEO of Jayani Technologies, I am honored to lead this exceptional team of talented individuals who are the driving force behind our company's success. Our journey, which began in 2011 in Mumbai, India, has been one marked by innovation, dedication, and a commitment to delivering unparalleled technological solutions.

At Jayani Technologies, we believe in pushing the boundaries of what is possible. Our mission is to not only meet the needs of our clients but to exceed their expectations, fostering lasting partnerships and contributing to the advancement of technology on a global scale.

As we continue to expand our horizons, including the recent establishment of Jayani Technologies Limited in Hong Kong, I am confident that, together, we will reach new heights of success and make a lasting impact in the ever-evolving world of technology.

In the dynamic world of telecommunications and data centers, staying connected is not just a necessity—it's a strategic advantage. At Jayani Technologies, we are committed to providing cutting-edge solutions that empower your connectivity needs, whether you're navigating the vast landscapes of telecom or harnessing the potential of data centers.

As technology evolves, so do we. Our team, fueled by passion and expertise, strives to deliver products that not only meet but exceed your expectations. From state-of-the-art telecom solutions to robust data center products, we are here to elevate your experience in the digital realm.

Discover our range of products, and witness the commitment that sets us apart. Thank you for choosing JT as your partner in connectivity. We look forward to creating a future of endless possibilities together.

Vision & Mission

Vision

Our vision is to be recognized by clients as trustful a trusted business partner whose mission is to help our clients by offering state-of-the-art products and services.

Mission

Our mission is to catalyze the success of its clients by providing unparalleled technological solutions. The company envisions itself as a catalyst for positive change, aiming to reshape industries through innovation, integrity, and a relentless pursuit of excellence.

Milestone

We celebrate not just the years that have passed but the journey that lies ahead. Jayani Technologies remains steadfast in its commitment to pushing boundaries, embracing challenges, and shaping the future of technology.

- 2011** The year 2011 was not just the inception of Jayani Technologies; it was the laying of a strong foundation for the years to come.

- 2014** JTOPTICS achieved a major milestone with the successful registration of its trademark.

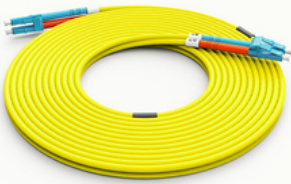

- 2015** First Manufacturing Unit of MPO Assembly and Patch cables, appointment of Qatar and UAE Partner

- 2017** Second Manufacturing Unit of LIU and Patch Panels , appointment of Singapore and Malaysia Partner

- 2019** Established state-of-the-art Optical Transceiver Assembly and Testing Unit.

- 2021** The expansion and diversification of its business into the burgeoning field of electric vehicles (EV)
