Company Profile

Sahara is a leading brand in the Designing, Manufacturing and Supplying of Low Voltage Switchgear Panels in Kuwait. Founded in 2003 by a group of successful and experienced engineers, Sahara has become a renowned force in the industry revolution in Kuwait. We are highly committed to provide our clients with quality products that meet their particular requirements. Our focus on Quality, Service and Technical Excellence has earned us an excellent reputation in the local market.

Our factory is equipped with state-of-the-art computerized machines that guarantee top notch quality products. Sahara is ISO certified at Quality, Environmental and occupational health & safety management system. All of our products have been carefully tested by ASTA & KEMA to ensure total compliance to latest International Standard IEC61439-1; IEC61439-2.

Today, Sahara stands tall as one of the leading providers of low voltage switchgear panels in Kuwait and is looking forward to establishing its presence even further across global markets.

Sahara Trading sector

Sahara Company, in the trading sector, has made a remarkable impact by supplying a multitude of projects with its high-quality products and services. With a wealth of experience and expertise, the company has successfully delivered its offerings to numerous industries and sectors, forging strong partnerships along the way.

A key factor that sets Sahara Company apart is its dedicated team of professional and technical engineers embedded in each trading department.

Each trading department within Sahara Company is equipped with its own team of skilled engineers who possess extensive knowledge and technical proficiency in their respective fields. These engineers play a crucial role in ensuring that the products and services offered by the company are tailored to meet the specific requirements and standards of each project.

As SAHARA's sales department, we provide the following electrical components/systems.

- Busway/Busduct System (EAE).
- Capacitor Bank (ORTEA by Icar).
- Central Battery (INOTEC).
- Lighting Control System (COOPER Lighting Solutions/Schneider Electric)
- UPS (Schneider Electric).
- Power Management System (Schneider Electric).
- Automatic Transfer Switch (ASCO/Schneider Electric)
- Earthing and Lightning system (Kingsmill).

WORK FLOW

Sales Department:

We firmly believe in the principle of being a true partner to our customers. Our sales staff is highly trained to thoroughly understand and analyze customer requirements. They are experts in coordinating both technically and commercially to ensure that our products not only meet but exceed customer expectations. We guarantee the perfect alignment and compatibility of our products with customer requirements and site conditions, all while staying within their budget.

Design Department:

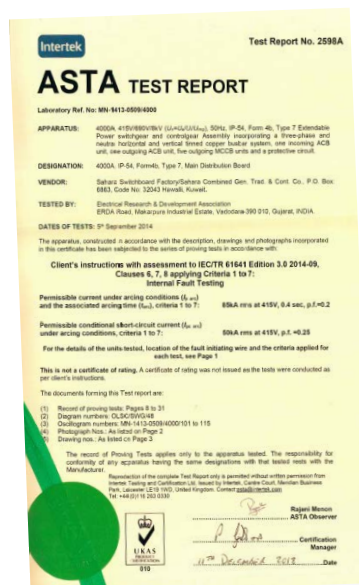

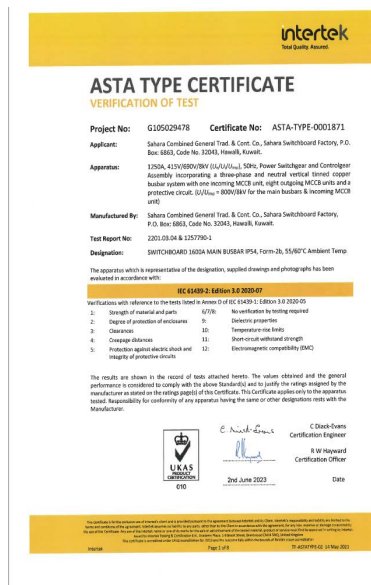

We are responsible for the preparation of technical submittals, compliance statements in accordance with customer specifications, catalogue copies of the components being offered, as well as drawings illustrating switchboard dimensions, component layout, and technical specifications of the switchboards.

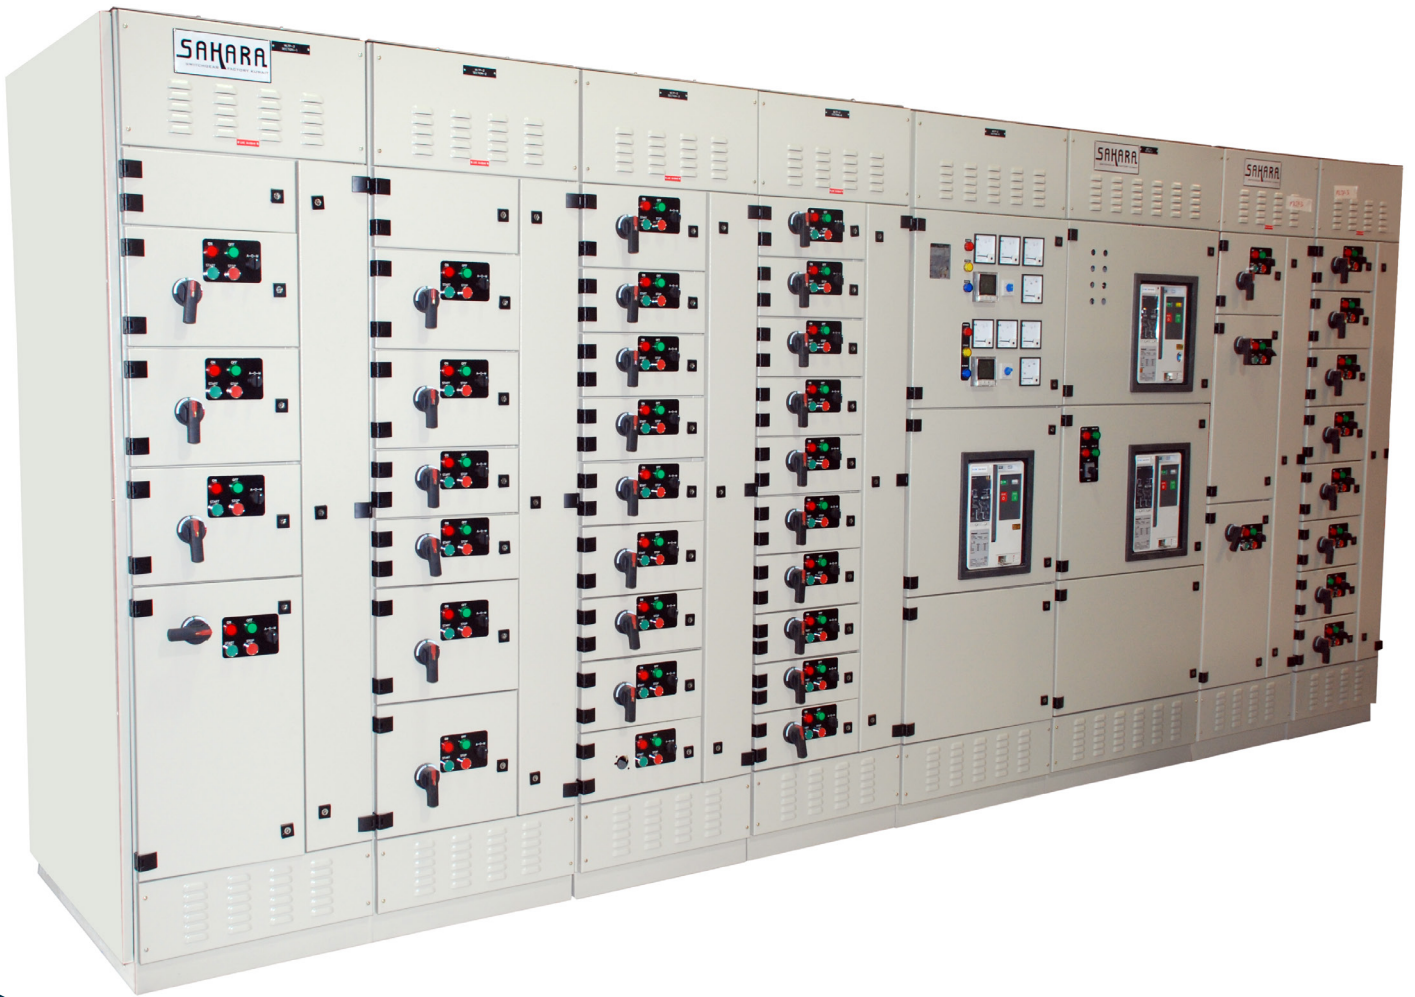

Production Department:

The production facility of SAHARA is furnished with state-of-the-art machinery and systems, overseen by a professional production engineer responsible for all manufacturing operations. The production process adheres to the “approved” design drawings provided by the customer, and is carried out by a proficient team of production staff to manufacture end products of superior quality. To ensure smooth production operations.

Quality Assurance and Quality Control (QA/QC) Department:

Quality Assurance department job comes after each manufacturing process to ensure that the quality of the finished product meets acceptable levels according to our guidelines. Final inspection of finished products before delivery is one of our most important quality control procedures. Quality control routine tests are carried out on each finished product according to the latest standard IEC-61439-1 (3rd edition).
