

## The awaited return of africa'up, emphasizing the friendly exchanges between African countries !

africa'up garnered african recognition as one of the most impactful events in the entrepreneurial landscape, it is focused on fostering innovation, nurturing startups and empowering youth entrepreneurship by connecting them with international investors, CEOs and key stakeholders within both african and global ecosystems. This gathering aims to cultivate opportunities, facilitate support, encourage exchange, drive innovation and propel the emergence of a dynamic new generation of African entrepreneurs.

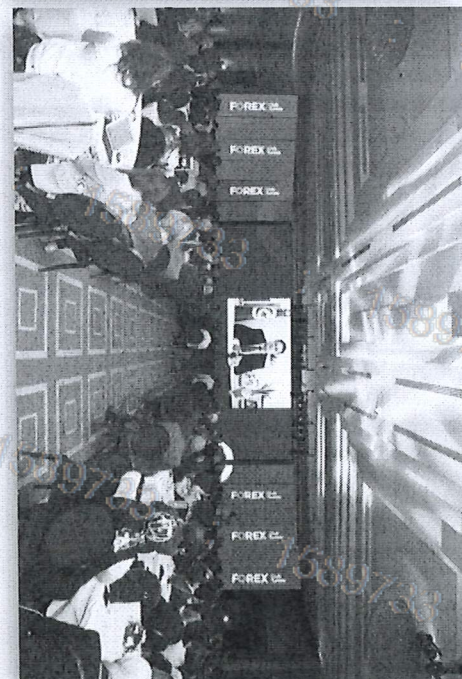

The positive impact of our participation has already been felt. Our presence has allowed us to expand our network and generate new opportunities. This experience has not only increased our visibility but has also strengthened our confidence in our startup and our services. Deep AI

Sabrina Ayari – **Operation Manager**

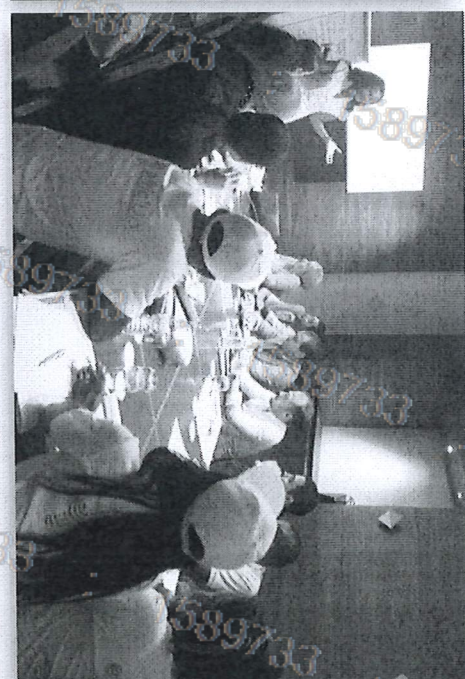

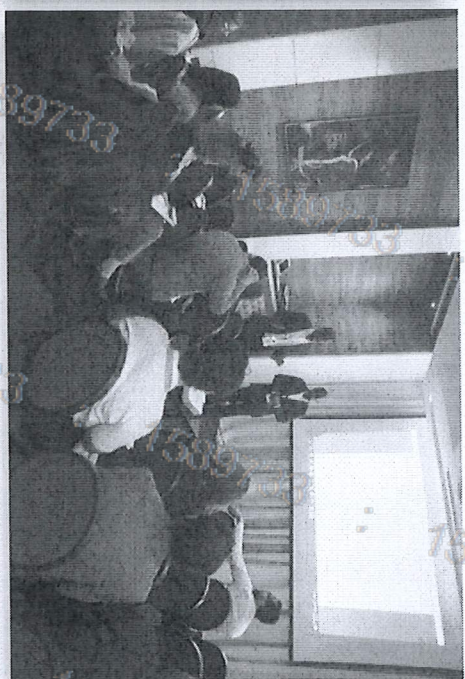

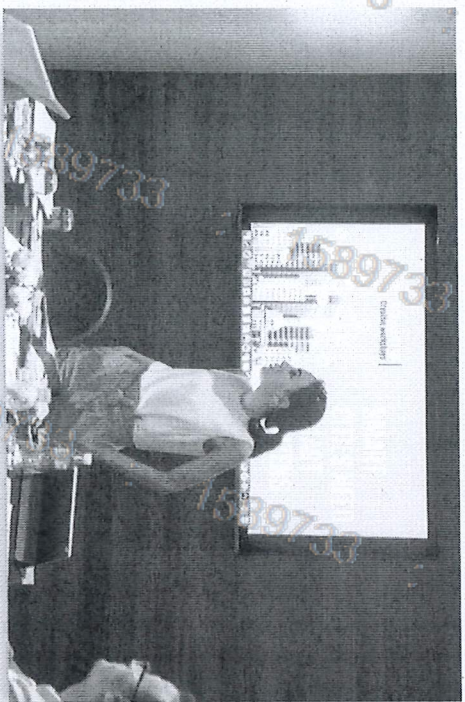

# Afric'up-Conference :

The actors of the African entrepreneurial ecosystem, including CEOs, decision-makers, public officials, ministers, investors, accelerators, incubators, startups, leaders will orchestrate their thoughts and share their success stories in a series of panels and keynotes. The Afric'up conference program is accessible via the link. Companies wishing to benefit from the exclusive visibility offered by the conference hall must obtain a sponsorship package.

## AfricaUp workshops:

AfricaUp's workshops aim to establish a strategic hub for African entrepreneurs, placing them under the guidance of seasoned coaches and experts. These professionals will focus on equipping participants with soft skills, key competencies that allow them to scale-up, access the international market and hunt funding opportunities. The workshop program is accessible via [the link](#). Companies wishing to benefit from the exclusive visibility offered by the workshop room must obtain a [sponsorship package](#).

## Startup Expo :

The 200 startups that have successfully passed the first stage of the qualification process, labeled as "admitted startups," will be allowed to showcase their innovations, products, services, and solutions within a warm audience of international investors and venture capital firms. This opportunity will enable them to gather information and establish contacts with potential clients and partners.

It was an incredible opportunity for our startup. Thanks to this event, we gained visibility, received valuable feedback, expanded our network, and even met important buyers. It has been a crucial step in our entrepreneurial journey, and we thank the organizers for this enriching experience.

Firas Youssfi – CEO and Co-Founder of Click and Win

## B2B Meetings :

### Meet Investors:

Meet Investors is a B2B activity exclusively dedicated to business matchmaking between startups and investors. Building on the success of its three previous editions, it will successfully facilitate the meeting of national and international investors with Tunisian and African startups, following a carefully planned schedule and under optimal logistical conditions.

### Meet Big Buyers:

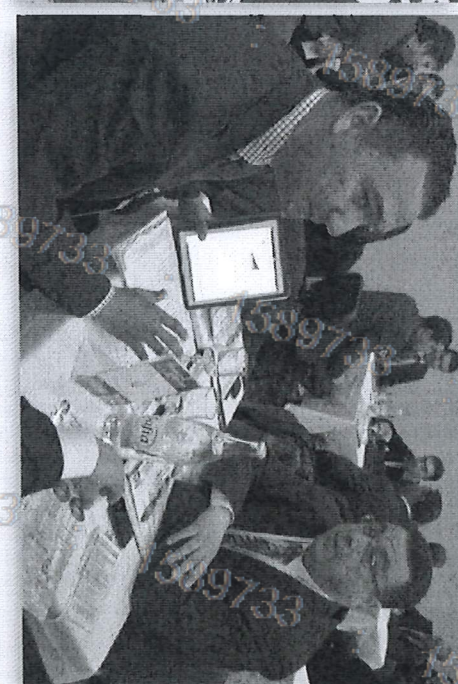

Meet Big Buyers is a business-focused activity aimed at helping companies identify opportunities in the high-tech sector. It caters to decision-makers and Information Systems Directors of companies with digital transformation projects (CIOs, CTOs, etc.). The goal is to explore partnership opportunities with suppliers, service providers, and startups in the fields of IT and digital transformation

As an exhibitor, we wanted to sincerely thank you for the impeccable organization of the TDS event and for the opportunity you provided us to develop fruitful relationships. This entrepreneurial event is undoubtedly the best in its category, and we are eager to participate in future editions. **DLG Gaming**

Center - TUNISIA**

[www.developerdays.tn](http://www.developerdays.tn)

## Developer Days, the annual gathering of African developers and engineers!

Developer Days is dedicated to the community of Tunisian and African developers, programmers, engineers, and software architects. It focuses on innovative projects, learning opportunities, career development, and networking with technology providers, training professionals, certification experts, and employment opportunities in various fields: full-stack development, API, microservices, DevOps, cybersecurity, cloud computing, artificial intelligence, automation, metaverse, gaming, and more.

### The job fair, the talent scout, and the recruiter for emerging talents!

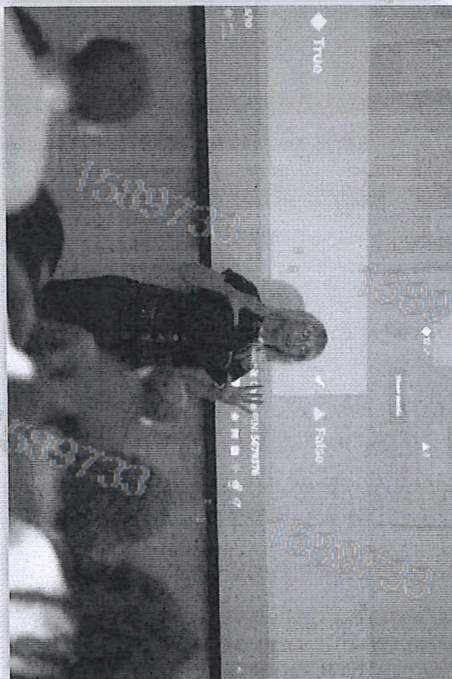

The Job Fair aims to reshape recruitment by returning to its core essence – the human factor. The job fair aims to create meaningful connections between companies with human resource needs across various sectors and a qualified network of young talents, graduated students or future graduates in different specialties. The Job Fair is committed to addressing the shortage of suitable recruitment profiles for companies and enabling young individuals to take stock of their skills and lay the first milestone in their career.

The recruitment workshops have allowed us to save a significant portion of the efforts made in searching for suitable profiles; they have connected us with a qualified network of candidates who perfectly match our needs, all within optimal logistical conditions and impeccable organization. VerodIGIT GmbH
