# Parents

Information is **POWER**

**Use this info to know WHERE to INVEST your TIME and MONEY.**

The combine is something that is **CONTROLLABLE** for all athletes.

The base measurement of a football player is the combine. As athletes use these metrics to help them pinpoint their strengths and weaknesses – it will allow them to know what to work on until their numbers are college ready.

**"If you aren't a Hudl star, be a combine star."**
